2020 International Chordoma Research Workshop
Sponsorship Opportunities

Since 2007, the International Chordoma Research Workshop (ICRW) has served as the principal gathering of the worldwide chordoma research community. It provides a unique forum for leading scientists and physicians from across the world to exchange the latest discoveries about chordoma, build partnerships, and shape the future of chordoma research and treatment development.

The Chordoma Foundation invites individuals and organizations interested in accelerating chordoma research and improving the lives of chordoma patients to become a workshop sponsor and help make this important event possible.

2020 WORKSHOP
Adapting to the constraints of the COVID-19 pandemic, this year’s workshop has been moved to an online format. Sessions will be held Thursday, July 16 and Friday, July 17 from 10 AM – 3 PM ET each day.

- **Thursday, July 16 will focus on clinical research advances.** Topics will include new approaches to surgery, radiotherapy and ablative therapy; strategies to promote patient quality of life; and the latest updates on clinical trials.

- **Friday, July 17 will focus on advances in basic and translational research.** Topics will include genomics and epigenomics, brachyury biology and drug discovery, immune biology and immunotherapy, and emerging therapeutic targets.

Additional details can be found on the conference website: chordoma.org/icrw2020

ATTENDANCE
We expect 150-200 participants representing a variety of specialties including:

- Surgery
- Radiation oncology
- Pathology
- Medical oncology
- Cancer biology
- Immunology
- Drug discovery
- Clinical research

To learn more about becoming a 2020 International Chordoma Research Workshop sponsor, please contact Josh Sommer at josh@chordoma.org.
SPONSORSHIP BENEFITS

- Elevate brand visibility among chordoma researchers and physicians through our network of 11,400+ Facebook followers, 11,000+ email recipients, and 200,000+ annual unique website visitors
- Demonstrate commitment to chordoma research and patient care
- Options to distribute information to workshop participants
